

Williamsville High School continues to be a great place to learn and grow. Some areas of accomplishment from this past year include:

- Completion of our new construction, including a greenhouse, classroom and Physical Education facilities.
- On-going curriculum revision in many content areas and the availability of some curriculum guides on-line.
- Continued improvement in PSAE and ACT scores.

Future areas of focus at WHS will include the following:

- Utilizing data research to aid in increasing student performance, especially in the area of Math.
- Continuing to invite the community into our building to participate in a wide variety of school programs and activities.
- Providing all areas of WHS curriculum on-line with easy access for parents and the community.
- Placing a greater emphasis on career education and career preparation for all of our students.
