

Sherman Elementary School has experienced many changes and accomplishments. Some areas of accomplishment during this past school year include:

Purchased a new math series to complete a revised K-12 program.

Continued integration of technology into curricular units of study.

Continued growth on the ISAT scores for third, fourth and fifth grades.

Continued parent involvement as classroom volunteers.

Continued efforts to help the community, parents, staff and students understand the educational needs and requirements of our special needs students.

Restructured the summer school program to make it theme-based.

Continued to monitor and improve playground and other school safety issues.

Areas of priority as we focus and plan on the future of Sherman Elementary School:

Implement the new math series to complete the K-12 program. Also, continue to inservice the teachers in this math program.

Study and work with the Village Board to help make the arrival and departure of students to and from school safer.

Implement character education and a student- to- student mentoring program.

Expand the fine arts curriculum , focusing on additional teaching tools for the classroom.

Continue staff development in the use of technology for lessons in the classroom and as a communication tool with parents.
