Below is a list of possible research paper topics for World History. Please note that this is only a partial list of possible topics. If you have other ideas, simply get them approved by your World History teacher. Remember, however, that the topic you choose must deal with a world history topic—topics dealing with the history of the United States will not be approved.

Also, keep in mind that this is only a list of topics, not thesis statements! Writing the thesis statement is your responsibility. Your thesis statement must deal with an interpretation of the topic and is not a simple report! For example, if you choose the Gulf War as your topic, do not write a report describing the events of the war. Instead, you must develop a thesis that will lead you through an analysis, such as the causes of the Gulf War, which is open to interpretation.

There will be a limit of two-three students per topic.
